

Advertise With Us

We like to make finding your substance abuse recovery program as easy as possible for those people seeking drug and alcohol treatment. To that end, we allow all rehab centers in California to freely list their facility at California Rehab Directory. To reach more people in need, we also offer paid sponsorship plans to rehab centers both inside and outside of California, though we give preferential treatment to facilities located in California. Your partnership in our sponsorship program allows us to continue to bring these services to those suffering from addiction.

California Rehab Directory offers multiple ways in which your drug and alcohol treatment facility can gain additional exposure. The first method is by adding a picture and logo to your listing to make them more visually appealing. A photo and logo may be added to your treatment facility listing for a one time fee of \$10 each. The second method is called the "Enhanced Listing". An "Enhanced Listing" will place your treatment center at the top of each page under its regional category, as well as allowing your treatment center to add photos and logos to your listing. Only one Enhanced Listing is available per regional rehab category. To enhance your treatment centers listing at California Rehab Directory, just:

- Log into your account
- Edit Your Free Listing (go to the listing you added and click edit)
- Click the Add Image button in your listing and go through the secure payment gateway and/or...

- Click the Add Logo button in your listing and pay via our secure payment gateway

The fee for an Enhanced Listing is \$50 per month for a term of no less than six months. Site Sponsorship

The second and more exclusive form of advertising is the California Rehab Directory Site Sponsorship package. The Site Sponsorship package advertises your site on every page of California Rehab Directory. We never take more than three (3) Site Sponsors at one time, so your facility will not compete with anymore than two (2) other California Rehab Directory facilities. Site Sponsorship packages require a 6 month commitment and can contain text, links, images and custom backgrounds. The Site Sponsorship ads are located at the top and bottom of every page and we rotate the position of the ads throughout the pages of the site so that no location is exclusive to one sponsor. Our published Site Sponsor fee is \$250 per month, but we often negotiate lower rates when facilities wish to advertise across multiple sites in our network. Please contact us with any inquiries about advertising. Our primary goal is getting helpful information to those seeking treatment, so we are willing to work with you and your budgetary constraints. Advertising Specials

In addition to our two traditional types of advertising, California Drug and Alcohol Rehabs may also fashion special advertising on a page-by-page basis. Please contact us for details.
